

Setting and Using a Cat Trap

Setting the trap:

1. Lift up solid metal plate (extraction door).
2. Place food in shown area (not on the pressure plate). Close extraction door once food is placed.
3. Lift locking bar all the way up to open trap door.
4. Whilst holding up the locking bar, push down on trap door handle to lift it open.
5. Use the hook shown, to hook the door handle into place, this will keep the trap door open.
6. Press on the pressure plate to ensure the trap is working.
