

Send PDF emails - fix

If you need to send PDF documents via email, the ".pdf" extension needs to be set to Adobe Acrobat Reader DC.

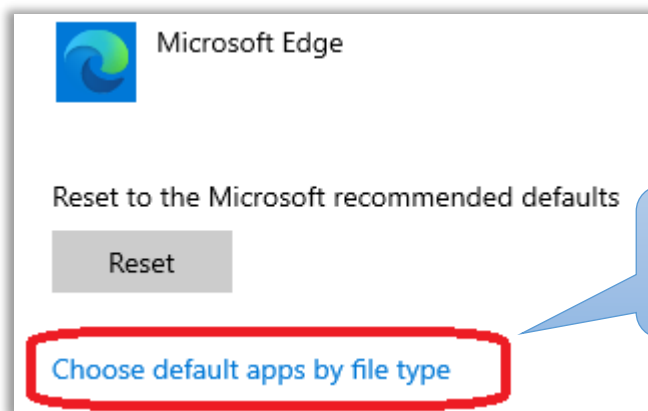

Step 1

Enter **default apps** in the search field

Step 2

Click on **Default apps**

Step 3

Click on hyperlink

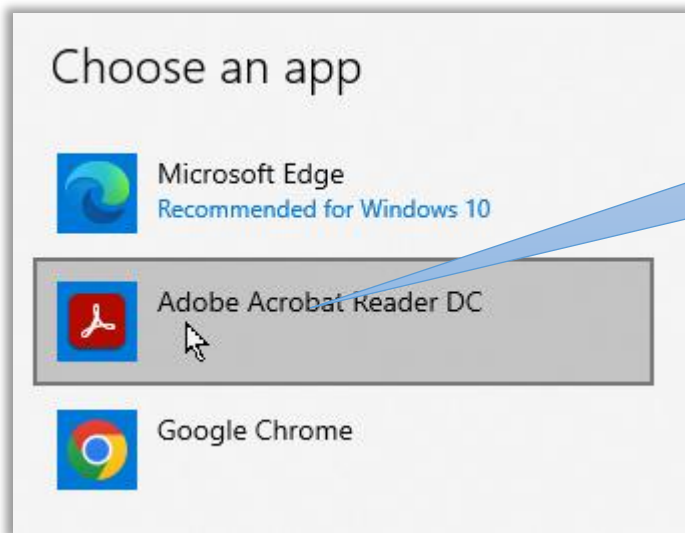

Step 4

Scroll down to **.pdf**

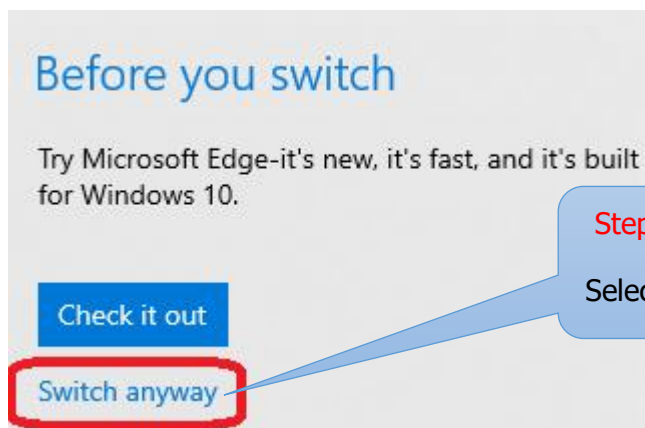

Step 6

If the program shows Microsoft Edge, then click on it to change. Otherwise call Gus

Step 7

Select **Adobe Acrobat Reader DC**

Step 8

Select **Switch anyway**

It now should appear as below

End
